

Remarks

Claims 1, 2, 4, 5, 7-17, and 19-21 are currently pending in the present application. The Examiner is thanked for indicating that Claims 14-17 are allowed. The Examiner is further thanked for granting an interview with the Applicants' representative. As agreed upon during the interview, Claim 1 has been amended to recite an interchangeable roller comprising both a decorative member and at least one wheel attached thereto, said interchangeable roller being attached to a first end of a shaft. In this manner, the entire roller assembly (i.e., the decorative member and the wheel(s)) may be interchanged as a single unit, rather than as individual units. As further agreed upon, Claim 7 has been cancelled.

In view of the foregoing, the Applicants submit, and the Examiner agrees, that the Claims as amended are fully patentable over all cited references, including van Voorhis (U.S. Patent No. 2,648,160), Pembridge (U.S. Patent No. 3,199,867), and Miller (U.S. Patent No. 1,726,626). Accordingly, the present Application, including Claims 1, 2, 4, 5, 8-17, and 19-21, is now in condition for allowance, which allowance is earnestly solicited.

Respectfully submitted,

Paul A. Taufer
